WORK EXPERIENCE

Front - End Developer | Achdut Israel — 2023 - Present

- Develop and maintain enterprise web applications using **Angular, TypeScript, RxJS, SCSS, HTML, and Angular Material.**
- Build **reusable and modular UI components** for complex business workflows and dashboards.
- Develop and maintain interfaces for **financial and accounting workflows**, handling sensitive business data such as **invoices, payments, balances, pricing, monetary totals, quantities, percentages, and calculated financial values.**
- Integrate front-end applications with **backend APIs** and manage asynchronous server-side data flows.
- Implement **data-heavy interfaces** including **advanced tables, filtering, searching, selection, virtualization, calculations, and dynamic user interactions.**
- **Collaborate closely with product managers and designers** to translate requirements and designs into production-ready functionality.
- Take **ownership of features and project areas**, including breaking requirements into development tasks and coordinating work with other developers.
- Develop **responsive interfaces for desktop and mobile environments.**
- Use **AI-assisted development tools, including Claude**, to support coding, debugging, refactoring, documentation, and faster problem-solving while maintaining code quality and reviewing generated solutions.

Front - End Developer | IAF Ofek — 2021 - 2023

- Development of a **component library** centered on optimizing User Experience (UX), featuring versatile, **reusable components**, and **implementing custom CSS from scratch**
- Contributed to the Matas project, a website dedicated to providing Independence Day flight information, **large-scale accessed annually by over 100,000 users.**
- Worked alongside **UX/UI professionals and developers** to implement accessible and user-friendly interfaces.

EDUCATION

- UI developer course - IDF school for computer subjects (Basmach)
- High school diploma specializing in computer science.
- UX course - IAF Ofek
